

## 5/6/7 CLASS AQUATICS

The Bay was looking a treat as the 5/6/7 class began two days of aquatics. The girls were excited as they set the windsurfers to the water, last seen heading for the channel! After kneeling and paddling on the paddle boards the boys were soon standing and paddling away!

The small boat handling group under the instruction of the legendary Yvonne Ackland zoomed off into the distance. Great fun!

## Self help skills

We encourage children to develop their self-help skills such as carrying their own back pack, putting on their own shoes/socks, being responsible for their lunch box and drink bottle. Through doing these things they practice their large and small motor skills, gain confidence in their ability to try new things and build their self-esteem and pride in their independence. It can be faster, more efficient and less messy to do things for children, but they learn so much from doing things on their own so please consider this and promote self-help skills as much as you can upon arrival and departure from kindy and at home.
