Leadership Effort Achieve Respect Nurture

Message from the Principal:

Dear Parents and Caregivers,

Welcome back! Hope you all had a great break and managed to relish in some good weather. We are back in full swing and we again have a jam packed term full of learning, challenges and fun.

We would like to welcome Skye Bradford back to the preschool for the rest of the year. Skye and Nell have been working extremely hard to prepare for our external review of the preschool. We have been working closely with Sally Cormack who is supporting us to ensure we meet all compliance areas. Thanks for all your support here Sally. We will continue our work on Monday looking at a new Quality Improvement Plan format. Skye, Nell and myself will be in attendance.

I would like to welcome Amber Clarke to Lake Wangary School. Amber is our new Foundation/year 1 class teacher. We are really excited to work with Amber, she has quickly settled into her class and has formed positive relationships with children. Please feel free to come and say g'day and talk about your child's needs. Summer is around the corner, we remind all parents and caregivers that it is mandatory to wear hats outside. Please ensure your child has a dark blue hat. They are available at school, \$5 for older cotton style and \$8.80 for newer nylon style. Next week, on Tuesday, we have health checks happening for preschool students. Preschool families have already received the information and consent forms. Please make sure you are at school (or a close family member/person the child trusts) to be present as this is a legal requirement.

I quick reminder to preschool parents, that preschool is open 3 days next week, Tuesday, Wednesday and Thursday.

Next week Mrs Morgan and Mr Rowe are attending STEM Science training in Port Lincoln. We are looking forward to some great new ideas and directions for this year and next.

In week 3 there are a couple of important things happening. On Tuesday the 29th of October 14 students from the year 3 to 7 class will be attending the Champions Academy event in Port Lincoln. The purpose of the this event is to help youths understand some of the key issues and challenges that their community faces, encourage them to see themselves as part of the solution and show them how they might be able to play an active role in shaping the future of their region through innovating and enterprising solutions. Students will work in groups with mentors and ex-champions. More information will accompany the permission slip. This is a great opportunity for students too bring about change for their community.

On Wednesday the 30th of October in week 3 we have dental visits for all foundation to year 7 students. Please complete the necessary forms and return to the school.

On Thursday the 31st of October, week 3, we are having school photos. All information will be sent out at the start of next week. Please ensure you get your forms and payment in as soon as possible. Information would have gone out this week, however we are without internet possibly for the rest of this week. Thanks for your patience.

Looking forward to a great term. We have some awesome activities coming up with a couple of big events in weeks 8 and 9.

Regards,
Wade Branford

Sama Sama

you're Welcome!

Phrase of Week

From the Pastoral Care Worker Glenys Sauturaga

Congratulations to our School Concert Raffle winners -1st place—Hawkes Family, 2nd place - Cara Pierce, 3rd place - Katheryn Osborn. The raffled items contained seeds collected from our kitchen garden, hand made reusable fruit & veggie bags made from up-cycled material, and succulents potted up by our students. SRC raised \$145.50 and we are so thankful for your generosity and support.

Healthy plants are growing in our garden beds (amongst the weeds..) Already this week we've harvested broad beans and collected fallen passionfruit. Our Bush Tucker Trail has provided many quandongs so these will be made into jam. Students are learning to incorporate produce into recipes for

Foody Fundraisers. Stay tuned for the lunch order forms and don't miss out on Foody Fundraisers on Thursdays during weeks 3, 5 and 7.

Material & Services Charges 2020

Please note that the standard sum for 2020 charges has increased from \$241 per child to \$244 per child in line with 2020 School Card amount. We have attached a copy of the notice for your viewing. You are invited to attend the next Governing Council meeting to discuss these charges, or alternatively write to 'The Chairperson of the Governing Council' to express your thoughts or concerns.

CAPTURING SCHOOL MOMENTS

Parenting support and information

Learning - About thinking and learning

Cognitive development refers to growth in a range of thinking and learning skills, including language, attention, planning, problem-solving and memory. International research has found that the involvement of parents and carers with their children's school contributes to children's achievement at school and had positive effects on their mental health and wellbeing.

How children learn: Although children are born with some inherited tendencies, an environment that stimulates learning and development is necessary to ensure children reach their learning potential. Adults play a vital role in providing stimulation and support for children's learning. Parents and carers can nurture children's development through understanding the importance of what children experience in the world

around them, and providing experiences that arouse their curiosity and interest. Opportunities for children to be actively involved in learning from their experiences are especially important for their development.

Children's knowledge grows over time as they build on earlier understandings. When they encounter new experiences, children look for information that they can use to confirm, add to, or change their ideas. For example, when a child experiences a new event, he or she first tries to understand the new experience by matching it to pre-existing ideas. If, however, the new experience doesn't fit with what the child already knows, it stimulates the child to come up with new ideas or ways of understanding. By adding or adapting old ideas and putting together children build knowledge. www.kidsmatter.edu.au
